

## SEARCH KEPT UP FOR MISSING PLANE ON LAKE MICHIGAN

CREW OF THREE THOUGHT TO BE  
DROWNED—HOPES OF SAVING  
IS ABANDONED

(By United Press)

Great Lakes, Ill., Nov. 12.—A fleet of airplanes was to continue the search today for the missing seaplane S-2-L, which left here Wednesday morning with a crew of three aboard, and was last seen Wednesday afternoon riding the waves twelve miles off Sheboygan, Wis. Airplanes that left here have combed Lake Michigan as far as Manitowoc, Wis.

Hopes that the crew was saved has been abandoned, seeing it would be impossible for a plane to stay above water in the swirling snow storm and seventy mile wind last night.

A revenue cutter and subchaser still are working along the shore, searching for a trace of the missing plane and keeping in touch by wireless with shore stations.

The S-2-L was commanded by Ensign E. M. Clarke of Peoria, Ill. Clarke is the son of a New York manufacturer but was employed at Peoria. He was using his two weeks' vacation to take a course for reserve officer at the naval training station here.

### Report Men Had Been Found Erroneous

Sheboygan, Wis., Nov. 12.—Coast guard officials at the Two Rivers, Wis., station, this morning declared there was no truth in the report being circulated in Manitowoc that the three missing naval air men had been found. It was their opinion that the men had perished in the blizzard sweeping over the lakes, but had hopes of recovering their bodies.

A fishing boat put out from Two Rivers station yesterday and searched the lake fifteen miles north of there without trace of the plane. The tug put back there at nine o'clock last night covered with ice. The Goodrich tug, Arctic, which also put out there, swept the lake for many miles around Manitowoc returning at 8 o'clock without trace of the men.

## Man Dies While Hav- ing His Teeth X-rayed

(By United Press)

Newark, N. J., Nov. 12.—Physicians and scientists here today were much interested in the strange death of Casimir Iig, thirty-five, of Roseville, N. J., who expired from an electrical shock while having an X-ray photograph made of his teeth.

The circumstances of his death as told by the coroner were as follows:

"Iig was suffering from septic poisoning. He went to Dr. Chas. Baker for an X-ray photograph. While Dr. Baker was in an adjoining room Iig laid down on the operating table and Ernest Hurd, an electrician and the doctor's brother-in-law, went behind a screen to switch on the current.

"Hurd said he was switching on the current when he heard a peculiar urking sound, and immediately turned it off. He found Iig lying on the operating table unconscious. The theory was that a spark had flown from the machine and hit him or he touched part of the apparatus with his arm. Both said he died from an electrical shock. Physicians said a spark would kill a man although it might burn him slightly. A slight burn was noticed below his heart. A gray sweater he wore was scorched on one arm. The burn on the body was not the kind made by an X-ray they said."

## MARSHALL MAYOR ASKS FOR COAL

(By United Press)

St. Paul, Nov. 12.—The state railroad and warehouse commission today received an appeal from Mayor Burchard of Marshall, Minn., for coal. The mayor's letter said practically but 600 tons of coal had been unloaded there since Aug. 1, and the situation was desperate.

The commission was also asked to investigate a report that mining companies and dock operators have refused to furnish coal to be delivered to the municipal docks at Two Harbors.

## SADI LECOINTE

Sadi Lecoite, the famous French aviator who won the international airplane race at Etampes, France, for the James Gordon Bennett trophy. He covered the course of 300 kilometers, or 186.3 miles, in 1 hour 6 minutes 17.13 seconds.

## NOLAN IS AGAIN SLATED AS SPEAKER

BELIEVED TO HAVE NECESSARY  
VOTES—ANDERSON UP FOR  
RE-ELECTION AS CLERK

(United Press)

St. Paul, Nov. 12.—W. I. Nolan, speaker of the last house of representatives, today was slated for the same job in the next legislature by members of the legislature from various parts of the state.

Nolan is understood to have fifty-one country votes pledged to him and is expected to pick up enough from the Twin Cities and Duluth to make the sixty-six votes necessary for election. George Nordlin, of St. Paul, and Oscar Swenson, of Nicollet, are also candidates for the speakership.

Oscar Anderson, veteran clerk of the house, is a candidate for re-election, and is understood to have seventy-seven votes lined up, ten more than needed.

Henry Robel, managing sergeant-at-arms in the last house, is again a candidate for this position.

## Would Regulate Sale of Malt and Hops

(United Press)

Washington, Nov. 12.—Prohibition enforcement officials today were studying the Volstead law to determine whether they can regulate the sale of malt and hops for home brew.

When the decision is reached a treasury department statement will be prepared and laid before Secretary Houston for formal approval.

Officials are not yet sure that they have authority to interfere with these two commodities.

## Home Rule Bill Passes Commons, Goes to House of Lords

(By United Press)

London, Nov. 12.—The Irish home rule bill promised for more than a decade, went to the house of lords for approval today. It passed the commons on the third reading last night.

## HOSTILITIES CEASE BETWEEN THE TURKS AND ARMENIANS

(By United Press)

London, Nov. 12.—Hostilities between Armenia and Turkey have ceased, Armenian representatives said today.

An armistice was agreed upon Sunday by which the Turks will retain Alexandropol pending negotiations, it was said.

## FARMERS ARRESTED FOR DISTILLING OF MOONSHINE

(United Press)

St. Paul, Nov. 11.—Wm. LaPlante, Paul LaRue and Al Vincent, Washington county farmers, were taken by federal prohibition agents yesterday in a carefully planned raid. They were taken to the Hennepin county jail pending arraignment on charges of distilling moonshine.

## GERMAN GOV'T. WINS IN CLASH WITH RADICALS

RESTLESSNESS AMONG WORKERS  
PORTEND A SERIES OF BAD  
STRIKES HOWEVER

By CARL D. GROAT

(United Press Staff Correspondent.) Berlin, Nov. 12.—The German government was triumphant today in the first clash with radical workers who attempted to emulate Italian workers in the seizure of plants.

Metal factories seized by workers were abandoned when police suddenly surrounded them. There was no violence, the workers realizing that they would be starved out if they did not yield. A "soviet" which seized a gas plant on the north side of the city, was compelled to withdraw.

Electrical workers returned after a strike of two weeks. The government has recruited a staff of students and experts to replace them.

Despite these settlements officials feared that restlessness among workers portended a series of strikes greater than occurred in Germany last winter. Lack of employment has increased which was recognized as a disturbing influence. At the same time Russian agitators are busy throughout the republic urging workers to rise.

## SUPREME COURT UPHOLDS VERDICT FOR RAILWAY COMPANY

(United Press)

St. Paul, Nov. 12.—The supreme court today ruled against Mrs. Christine C. Brown, of Marquette, Mich., who sued the Duluth, South Shore & Atlantic railway for \$35,000 following the death of her husband in an accident in February, 1919. The court upheld the St. Louis county court decision in favor of the company.

## UNEMPLOYMENT IS GREAT IN EUROPE

100,000 ARE IDLE IN GERMANY  
AND A LIKE NUMBER IN GREAT  
BRITAIN, 1,500,000 IN ALL

By WEBB MILLER

(United Press Staff Correspondent.) London, Nov. 12.—Strikes and slacking off of business in Europe has left 1,500,000 workers idle.

Exact figures were not available today but the British labor ministry put the number of unemployed at one and a half million as a conservative estimate.

In Great Britain 200,000 draw unemployment pay from the government and there are tens of thousands not benefited by payment.

Thus far there are no signs of suffering. The winter has been mild. At the same time there is worry of prospects for the winter. The government has urged unions to admit unskilled labor, especially in building trades which the government plans to use this winter in contract building.

Germany's idle are only estimated at 400,000. Of these many are receiving government rations. Strikes have been frequent in Germany.

France has 200,000 unemployed. There were no statistics from Italy, Austria and Central Europe, but conditions were known to be bad there. Italy has been preyed upon by bolsheviks and anarchists.

## Four Men Adrift in Boat on Lake Erie Are Rescued

(United Press)

Buffalo, N. Y., Nov. 12.—After a search of several hours in Lake Erie near Port Calborne, Ont., today, four men adrift in two scows were rescued from almost certain death by the United States coast guard crew from this port. One of the scows went to the bottom last night. A southeast gale blew all night and a high sea rolled. The scows were being towed into this port to be put up for the winter by the tug Nellis, commanded by Captain Harry Colter, of Cleveland. Colter said the tow line broke and his tug began taking water. He said he attempted to make for Port Calborne.

## MISS CHARLOTTE CLARK

Miss Charlotte Freeman Clark, daughter of Mr. and Mrs. Watson Freeman Clark, was designated by Mrs. Woodrow Wilson as the representative of the District of Columbia at the Princess' ball in the cotton palace at Waco, Tex. She is of an old Washington family, and was educated in private schools there.

## THREE ARE KILLED IN RANGE ACCIDENT

CARS PLUNGE OFF OF TRESTLE  
AS RESULT OF A COL-  
LISION

Nashauk, Minn., Nov. 12.—A switch engine and caboose of the Great Northern road crashed into the rear end of a freight train standing on River Brook trestle, a mile out of Nashauk, Thursday morning and sent the caboose and one box car of the train plunging over the trestle, 50 feet into the ravine below. Two men in the caboose of the standing train were killed when the cars crashed down into the ravine.

The dead are:

John Hurley, engineer of Kelly Lake, survived by widow and one child.

J. E. Williams, brakeman of Kelly Lake, survived by widow.

Neither the engineer nor the fireman on the switch engine were injured. The two men who were killed were the only occupants of the caboose. Both had been with the Great Northern road for many years.

## FLOUR AND WHEAT DECLINE DUE TO STOP IN FOREIGN BUYING

FLOUR HAS BEEN REDUCED \$6.00  
PER BARREL SINCE  
JUNE

(By United Press)

Minneapolis, Nov. 12.—Cessation of flour buying throughout this country and abroad has kept Minneapolis mills working less than half capacity and resulted in continual decline in flour prices, millers said today.

Mill prices on flour have declined almost six dollars per barrel since June, the northwest millers pointed out.

Prices today were approximately \$9.30 to \$9.60 per barrel on family patents f. o. b. Minneapolis, compared with \$15.10 to \$15.20 last June—the peak in milling history.

## Yale Plays Princeton Tomorrow; Brothers Cap- tain Opposing Teams

(By United Press)

Lawrence, Mass., Nov. 12.—If the hopes of a mother could decide a football game, the battle between Yale and Princeton tomorrow would be a tie.

Mrs. Mary E. Callahan, mother of Captain Tim Callahan, center of the Yale eleven, and of Captain Mike Callahan, center of the Princeton team, told the United Press today a no-decision game was her fondest desire.

"A mother can't take sides or show any favoritism between two such fine sons," she said.

"Last year I sat in the Yale sector and this year I shall be on the Princeton side. That is only fair. Neither shall I root for either," she said.

The proud mother of the two heroes will wear no colors or carry any pennant that would identify her as a supporter of either Yale or Princeton. "Wouldn't it be great if the game ended a tie," Mrs. Callahan said. "But I am afraid I can't hope for that."

## 18 PERSONS INJURED IN TRAIN WRECK NEAR BROWNSVILLE

Bloomington, Tex., Nov. 12.—Eighteen persons were reported injured when a passenger train on the St. Louis, Brownsville & Mexican railroad ran into a broken rail on the outskirts of Brownsville today. Four cars were derailed. The train was en route from Houston to Brownsville.

## General Nivelle, Hero of Verdun, Being Welcomed to New York by Boy Scouts

General Robert Georges Nivelle, hero of Verdun and for a time commander-in-chief of the French army, arrived from the line La Lorraine at his New York hotel. The little scout with whom the general is shaking hands is Frank Tobin, 13 years old.

## JOHS PLUM

## HUNGER STRIKERS ABANDON FAST

AFTER 95 DAYS WITHOUT FOOD—  
TWO DIED—INTERVENTION OF  
BISHOP DECIDED THEM

(United Press)

Dublin, Ireland, Nov. 12.—The remaining Sinn Fein strikers in prison at Cork today abandoned their fast, according to a dispatch received here from that city. This was the ninety-fifth day of their hunger strike.

There were nine of the hunger strikers left, two having died.

Abandonment of the strike was brought about through the intervention of Bishop Cahan.

The nine were very weak and exceedingly emaciated, and it was believed they would not have survived many hours longer.

The nine strikers are John Hennessey, Michael O'Ryan, Thomas Donovan, James Kenny, Usthor Power and Murray, and one unknown.

Michael Fitzgerald died Oct. 17th after sixty-eight days of fasting.

James Murphy, born in the United States, died Oct. 26th after seventy-six days without food.

With two of the strikers virtually in a collapse, prison physicians said it was doubtful if either of the men will recover. They are in such a weakened condition that it was believed feeding now would be exceedingly dangerous. Their ninety-five days of fasting constitutes a record not approached by an authenticated case.

The record is so remarkable that during the time the men have been confined to their cells there have been rumors of secret feeding. This has been denied by the jail officials and the strikers. The rumors were discredited to some extent when two of the men died. The men were confined to separate cells all openings into the common corridor. Down this corridor the men passed from one cell to another. The prisoners were described as greatly emaciated and barely strong enough to whisper their needs to the nurses.

## AUTO BANDITS GET BIG LOOT ROBBING BANK

(By United Press)

Circleville, Ohio, Nov. 12.—Four automobile bandits held up the First National bank at Kingston, ten miles south of here today and escaped with \$4,000 in currency, between \$150,000 and \$200,000 in stocks and bonds, and a quantity of liberty bonds, the value of which was uncertain, according to reports received here.

## CLOSED SEASON FOR MUSKRATS PRO- CLAIMED BY GOVERNOR

(United Press)

St. Paul, Nov. 12.—Approximately one hundred thousand muskrats will be saved from slaughter this winter because of a proclamation issued by Governor Burnquist today at the request of Carlos Avery, state game and fish commissioner. The governor ordered a closed winter on trapping muskrats from Dec. 1 to April 1. Avery said a closed winter will save muskrats from extermination in the state.

## 'NORTHER' KEEPS HARDINGS FROM FISHING TODAY

PRESIDENT-ELECT'S PARTY VIS-  
ITS MEXICAN CITY OF MATA-  
MORAS ACROSS BORDER

RAYMOND CLAPPER

(United Press Staff Correspondent.) Point Isabel, Texas, Nov. 12.—A whistling "norther" blowing across the bay, kept President-elect Harding off the water today. Early this morning he was waiting on the weather before deciding whether to go into Brownsville for golf or lounge around the cottage.

A slight drop in temperature and overcast skies that the "norther" brought with it, drove away the semi-tropical aspect of this village. It resembled more the bleakness of the New England coast. Members of the Harding party went about bundled in sweaters and heavy clothing instead of the tropical duck and thin shirts they had found so much comfort in.

Unofficially members of the party have received welcome from the Mexican side of the border.

Just across the river the historic old town of Matamoros where Maximilian held his elaborate court, had been thrown open to the party. The Mexican hospitality is of the warmest kind. Members of the party who crossed the border found excellent order being preserved. Gambling resorts were locked up and dark. Barrooms were running but there were no signs of disorder. Mexican officials sought to dispel any impressions among the visitors that banditry controlled. There were no bandits within miles of the city, they said.

Friendly feeling on either side of the border has increased as a result of the visit of President-elect Harding here.

## INDIANS BRING SUITS TO RECOVER LAND THEY SOLD

(By United Press)

Fergus Falls, Nov. 12.—How many of the six thousand Indians on the White Earth reservation are full-blooded?

This was the question put to Judge Page Morris at the opening of the federal court session today when the government submitted a roll of the entire population of the reservation.

The question arose out of the sale of thousands of acres of land by Indians and half-breeds, which has resulted in over fifteen hundred suits. It is charged full blooded Indians would sell land, claiming to be half-breeds. Afterward they would ask the government to recover their property asserting they were full-blooded and not entitled to sell property as are half-breeds.

## Coal Prices are Unjustifiably High

(United Press)

New York, Nov. 12.—Coal exports so far this year amount to 8.5 per cent of the country's total production, the interstate commerce commission said in a statement today. While this is larger than exports for the years 1914 to 1919 when they ranged from 5.95 and 6.19 per cent of the total production, minor factions are bringing about unjustified prices over the country as a whole, but did not cause exorbitant prices in some eastern cities, the commission said.

## Mrs. MacSwiney Will Come to Washington

(By United Press)

Washington, Nov. 12.—Mrs. Muriel MacSwiney, widow of the late lord mayor of Cork, has offered to come to Washington to testify before the American commission on Ireland, and her offer has been accepted, it was announced by the commission today.

Whether Mrs. MacSwiney can get a passport for the trip has not been looked into, it was said.

Money-Making Called Obsession. Big money-making is like drink—it's a habit. At first you want money. Later you think only of the game, and the money becomes the mere symbol of success. Last stage of all, you play because you cannot stop.—Walter E. Weyl in Saturday Evening Post.

## THE WEATHER

**Forecast for next 24 hours:**  
 Minnesota—Generally fair tonight and Saturday.

## Young Men:

Do you realize that your habits and ideals are the basis on which other people form opinions of you, and that their opinions are going to have much to do with your advancement in business life?

The business man of today is looking for men of strong character and high ideals. It is most important, therefore, that you start now to cultivate your character by learning the meaning of thrift and the value of money.

Stop spending every cent you make. A spendthrift never gets anywhere. Begin putting a few dollars in the bank each week. This bank is anxious to see the young men of this community get ahead. We will welcome your deposits, pay you 4% interest and will render you every service we can to help you.

**FIRST NATIONAL BANK**  
**BRAINERD**  
 "SAFETY AND SERVICE"

Before you buy a can of Calumet you are certain of the greatest baking powder value—of the best baking results.

Because there are so many definite proofs of its superiority—of its purity and reliability.

It received highest awards at World's Pure Food Exposition, Chicago; Paris Exposition, Paris, France. PROOF that it is the best baking powder in the estimation of expert judges of baking powder quality.

For thirty years it has been the favorite of millions of housewives. PROOF that it gives those millions the best of satisfaction.

It contains only such ingredients as have been officially approved by U. S. Food Authorities. PROOF of its strict purity and excellence of materials.

It is made in the largest and most modern and sanitary baking powder factories in the world. PROOF that it must be better baking powder than one made under less favorable conditions.

You save when you buy it—moderate price. You save when you use it—possesses more than ordinary leavening strength—therefore you use less.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

## Calumet Chocolate Cake

## Recipe

1 1/2 cup butter, 3/4 cup sugar, 3 teaspoons Calumet Baking Powder, 1/4 teaspoon salt, 2 cups sifted flour, 1 cup milk, 2 eggs. Then mix in the regular way.

## Safety Always--Chiropractic First

No other system in the body has as vital a bearing on every diseased condition as does the NERVOUS SYSTEM.

It is thru this system that that elusive something travels which actuates the entire human organism. It is upon the activity of the nervous system that every organ in the body is dependent for its function. The heart beats only because it receives thru the nervous system, its normal quantity and quality of energy by way of the nervous mechanism. If it so happens that those nerve fibres are affected which supply the heart it is abnormal in its function; and so this is true of every organ and tissue of the body.

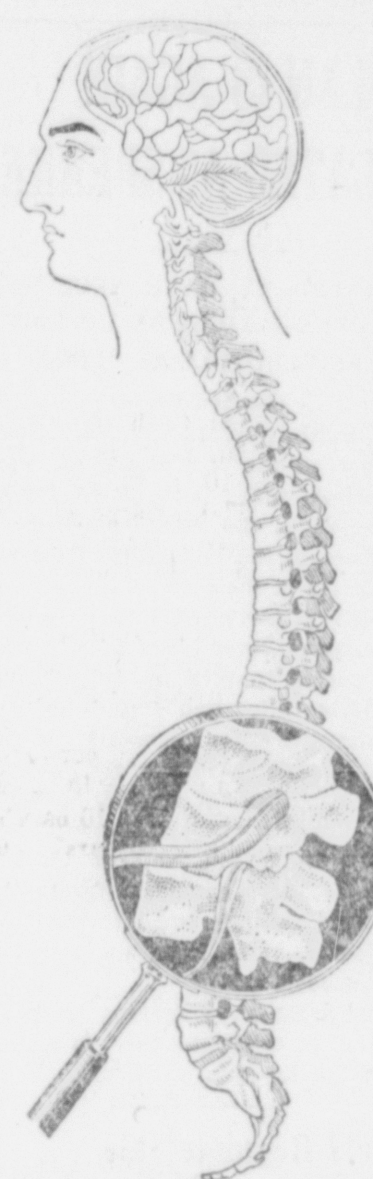

The Chiropractor is trained to detect this abnormality and restore it to proper position thereby insuring normality and perfect function.

MEMORIAL SERVICES

To be Held Sunday Evening at the  
Congregational Church—Francis  
B. Randall Will Give Address

(Contributed)  
Perhaps thoughtlessness was responsible for the small attendance at the funeral of the boy who was killed in France and whose body was recently returned to Brainerd for burial. We all hope that such is the explanation.

We proved that it was by our attitude on Armistice Day, Nov. 11. On Sunday, Nov. 14, which is by proclamation, "Memorial Day", special memorial exercises will be held in the First Congregational church in the evening at 7:30 o'clock.

At this service Dr. Francis B. Randall, secretary of the Chamber of Commerce will give an address, Dr. G. I. Badaux will sing a special solo, S. F. Alderman will sing a solo in keeping with the spirit of the occasion and others will take part in the service.

The pastor of the church is an ex-service man who served as chaplain in the United States army.

All service men who do not expect to attend service elsewhere are invited to join in this service. Let's get together in memory of our dead. The service will be open to the public, but seats will be reserved for ex-service men.

"Alumni Club"

The Alumni club met Wednesday evening at the Commercial College rooms to form plans for social gatherings during the winter months. About twenty-five former graduates of the college were present. It was decided to have a sleigh ride in the near future. After the meeting they attended a performance at the New Park Theatre. A fine time was enjoyed by all.

Entertain Friends

Mrs. W. S. McClenahan, Mrs. Nellie Keene and Mrs. R. J. Tinkelpaugh, entertained a group of lady friends Wednesday and Thursday afternoons at the McClenahan residence on North Bluff Avenue.

Apron Sale Tonight

There will be a sale of aprons, towels, pillow slips and other useful articles at the Swedish Bethany church tonight under the auspices of the Ladies Aid society. They will also serve coffee, cake and sandwiches. All are welcome.

He Feels Ten Years Younger

Any man or woman suffering from lame back, headache, stiff joints, sore muscles, rheumatic pains, or any symptom of kidney or bladder trouble will be interested in this from H. P. Dunn, 925 Garden St., Hoboken, N. J. "I feel ten years younger, and when my wife has taken Foley Kidney Pills she will, too." H. P. Dunn, druggist. mwf

To Clean Beeswax

When sewing-room beeswax begins to look dingy, it may be melted and remolded. The grime drops off at once when the wax is melted on the surface of boiling water, and gives a clean piece of beeswax when remolded.

This week is Cloverland Lamb Week. Eat more lamb—the healthful meat. 135tf

ANDERSON STUDIO

O. B. Orres returned Monday evening from Cooperstown, N. D., where he had accompanied the body of Jacob Johnson who died at a hospital in Brainerd. Mrs. Johnson also accompanied the remains to its last resting place. The Johnsons are the old couple who have been living in the George Moulster residence adjoining that of Clem Henry for some time past.—Pine River Sentinel-Blaze.

Employees of the Northwestern Telephone Exchange Co. gave a farewell party to Arthur Johnson, wire chief of the company, who has

been transferred to Minneapolis and will leave December 1. Twenty-two of the operating force and eight of the construction department were present. The evening was spent in card playing and dancing, refreshments being served. Mr. Johnson was given an electric percolator.

THE HUSTED HAT SHOP

The SAMSON TRACTOR of Today

This wonderful Tractor, manufactured by the General Motors, is here to stay, and we are here to sell it, and you are here to buy it. If in need of a Tractor, providing you have made comparisons, come in and let us go into detail and explain it to you. Others may tell, but the SAMSON will prove.

The following is a letter from one of our purchasers:

The Sherlund Company,

Brainerd, Minn.

Dear Sir:—

Mr. Whiting and Mr. Robins were here to call on me in regard to the service I was getting out of my Samson Tractor. Mr. Whiting being from the Samson factory, said you would be pleased with a letter from me telling what I think of my tractor, that I bought from you through your agent, Mr. Perrin, here at Pine River. I am just as glad to tell you as you are to know, because the tractor has done some wonderful work for me.

I have used the tractor on a No. 8 Birdsall clover huller, a 20-inch Oliver plow, a 14-inch tractor gang plow, and also for working down ground and I find it has plenty of power and does all the work I have desired in a way that could not be beat.

Have not had any trouble, and do not see any wear except the bearings in the front wheels which lets the sand work in, but as yet does not bother and I don't think it will, this season at least.

If I was in need of another tractor and knew all I know about the Samson, I would buy no other for my use.

Yours truly,

(Signed) HARLEY MULLNIX.

If interested, call or write us for literature explaining the SAMSON, or any farm implements you will need for spring work.

FRIDAY, NOVEMBER 12, 1920

JAPANESE RACE EQUALITY

Japan is making race equality in America an issue and is preparing a case to be given the Geneva conference of the league of nations.

Japan is making an attempt to get race equality in America when Australia denies her what she seeks in America and England itself does not permit what she seeks.

Americans cannot own land in Japan and a foreign laborer is not allowed admission in Japan.

Why then should an American congress seek to override the will of California which has the Japanese problem right at its front door and why should Japan be given favors in America which she herself does not grant to the world?

America apparently has been singled out as the Christmas tree of the nations, not alone in this Japanese race equality, but in the move apparent that she remit the \$10,000,000,000 loan made to the allies and on which apparently no interest has yet been paid.

AMERICA HAS PAID HALF HER BIG WAR DEBT

(United Press)  
Washington, Nov. 12.—On the second anniversary of the signing of the armistice that ended the world war, America's two foremost leaders—in that conflict are making ready to step back into private life.

Just two years ago Thursday President Wilson, standing in the House of Representatives, read to an assemblage of congressmen, cabinet officials and diplomats the terms of the document the Germans had been forced to sign. Today, the president—a white haired invalid—a casualty of the great war he helped end, his friends say—is making ready to leave the White House for some quiet home where he probably will write a history of the great events in which he stood as a leading figure.

Gen. John J. Pershing, head of the American Expeditionary force, soon will put aside the khaki. The first full general since Grant, has finished his reports. His work in connection with the army organization act, is practically over. The general expects soon to take a trip to South America as an official representative of this country. Beyond that his plans are not known.

Along with President Wilson, there will retire several cabinet members who helped carry the burden of America's war effort. Secretary of the War Baker and Secretary of the Navy Daniels are two of these. Secretary of Labor Wilson, who helped keep the country free from labor troubles during the days of conflict; Postmaster General Barleson, who managed the telegraph and telephone lines, and Secretary Houston, now in the treasury and formerly at the head of the Agriculture Department, will also leave the cabinet.

But if the war leaders are passing, America still has before her sufficient reminder of the days when the German hordes were turned slowly back.

Throughout the country on next Sunday memorial services will be held for more than 100,000 American soldiers who were killed or died of disease—114,465 is the exact number, according to government statistics. President Wilson has officially proclaimed next Sunday as the day for memorial services.

Nineteen thousand five hundred men wounded and disabled, many of them crippled for life, are still in government hospitals undergoing treatment, according to figures of the War Risk insurance bureau.

Some American troops are still in Europe. They constitute the army of occupation, 15,000 strong at Coblenz, Germany, where the American forces were assigned under terms of the armistice.

And according to all reports, these soldiers are living a vastly different

life from those who tramped through the mud and lived in dugouts. Because of the decline of German money, the American soldiers with their \$30 a month are in the millionaire class. Germany not being dry, a large glass of beer can be obtained there for one cent in American money. Other prices are in proportion.

Nearly half of the cost of the war to America in actual dollars has been paid, according to treasury department figures. This, however, is exclusive of the \$10,000,000,000 loaned the allies.

Exclusive of that ten billion, former Secretary of the Treasury Glass estimated the war cost this country \$26,007,000,000. Of this \$11,180,000,000 was paid in taxes during the course of the war and afterward. Two and a half billion more has been paid since the armistice—a total of \$13,680,000,000 paid.

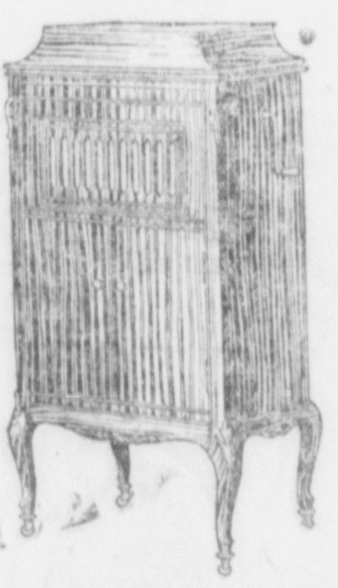

Under present plans of retiring the debt it will take about twenty-five years to retire the remainder of the war debt.

MAN GIVES WIFE GLYCERINE MIXTURE

She had stomach trouble for years. After giving her simple buckthorn bark, glycerine, etc., as mixed in Adler-ka, her husband says: "My wife feels fine now and has gained weight. It is a wonderful stomach medicine." Adler-ka acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach and which you never thought was in your system. EXCELLENT for gas on the stomach or chronic constipation. Guards against appendicitis. The impurities it brings out will surprise you. Johnson's Pharmacy.

Widow Preferred to Meet Death at Home

"For many years I suffered from stomach trouble. All the doctors I tried helped me but little. All said I would have to go to hospital and be operated on for gall stones or would not live much longer. I told them I preferred to meet death at home. One day I picked up an advertisement of May's Wonderful Remedy and since taking a course of it more than a year ago have not had a single pain in my stomach, have good appetite and can eat anything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

## LONE OFFICER STOPS RIFLE-ARMED BOOZE CAR

Work Done by Special Officers Every Bit as Dangerous as National Prohibition Officers

### OFFICER MAYER KNOWN HERE

Last Week Officer Mayer Picked Up a Nash Car With Five Cases of Whiskey

One must give credit to the national prohibition officers for the publicity they get in their work. For instance, one story had a suu chaser armed with long range guns chasing booze boats on Lake Superior, when the treaty with England, absolutely forbids England or America to have armed vessels on the Great Lakes.

Officer Leo Mayer has worked under Officer E. G. Boyd in this territory at Brainerd and is known as a cool, reliable man. These men do not belong to the national prohibition enforcement class, but are working more quietly and with as much or better success in reducing the booze traffic.

The Frazee Weekly Press gives this record of just a week's work on the part of Mayer:

Monday forenoon Officer Leo Mayer intercepted three men in a big National car and forty cases of Canadian booze. The National car was loaded to the guards but the car had broken down, and the Buick with the woman driving was towing the car. The party had proceeded in this manner all the way from Minot, and the rather unusual proceeding attracted the attention of Mayer, especially as two of the men carried rifles. On the cars being searched, 40 cases of whiskey were discovered. Mr. Mayer took his prisoners and the cars to Detroit.

Last week Mr. Mayer picked up a man in a Nash car with five cases of whiskey and two weeks ago found the driver of a big Cadillac car conveying a case of whiskey.

It is rather unhealthy for the whiskey runners to go through this section with Officer Mayer on the job.

### WHITTIER ASSOCIATION

Parent-Teachers Meeting Held Tuesday Evening at Whittier School

#### —Details of Program

The meeting of the Parent-Teachers Association of the Whittier school was held Tuesday evening Nov. 9th and was very well attended. The minutes of the previous meeting were read and matters pertaining to school interests were brought up and discussed. An interesting program followed.

A girls chorus from the high school sang very pleasingly the old song favorite, "Kentucky Babe" with Miss Lydia Nelson directing.

This was followed by Chaminade's "Scar Dance" for piano by Miss Elizabeth Johnstone. Miss Johnstone played this number beautifully and equally well the delightful little duet "Mighty Like a Rose" by Nevin.

Rev. Arthur C. Smith sang two well-loved songs which were much enjoyed: "One Fleeting Hour" by Dorothy Lee and "Absent" by J. W. Metcalf. The accompaniments were played by Mrs. L. O. Kelsven.

Francis B. Randall gave a very informal and enjoyable talk on his own experiences and observation of "France and French People".

The meeting ended with community singing led by Mr. Randall.

The next meeting of the Whittier Parent-Teachers Association will be held the second Tuesday in December.

### "COME PREPARED"

Those Who Did Not Pay for Their Tickets at First Meeting Asked to Do So Saturday

Those who did not pay for their tickets at the first meeting of the Brainerd Musical club, should come prepared to do so at the next meeting Saturday, November 13, is the announcement the Dispatch has been asked to make.

### BOWLERS ATTENTION

Members Fraternal Bowling League are requested to meet tonight at Cooke Alleys, 8 p. m. Important business.

ROY N. ZIERKE, Sec.

### String Holder.

A convenient string holder may be made of a small funnel hung in a corner of a kitchen. A ball of string should be put in the funnel, the loose cord extending down through the stem.

Good for Him and His Wife  
Hurley L. Watkins, 2508 Lytle St., Louisville, Ky., writes: "I found Foley's Honey and Tar just what I wanted for my wife's and my colds. Checks coughs, colds, croup, bronchial coughs; stops that 'tickling' throat that keeps one coughing at night. Contains no opiates nor habit forming drugs. H. P. Dunn, druggist."

## ICE KING GETS RIVER IN GRASP

On Armistice Day the Mississippi Was Sheathed in Ice From Shore to Shore at Paper Mill

### CLOSED AT LITTLE FALLS ALSO

River Froze Over There on November 9. One of Earliest Dates Since Year 1895

The Mississippi river used armistice day at Brainerd and coated itself with a sheet of ice which bids fair to last the rest of the winter. This is considerably later than in 1919, when Minnesota had a premature winter which persisted in hanging on.

At Little Falls the river froze over on November 9, the earliest date for the annual freeze since 1895 with the exception of one year—1917. Last year the first ice formed early in November and the channel was opened by a thaw on March 27th.

### BARACA ANNUAL MEETING

Fifth Annual Meeting and Supper of First Baptist Church Society

The Baraca class of the First Baptist church Bible school will hold their fifth annual meeting and supper this Friday night at 6:30 o'clock. This occasion is always a delightful affair and looked forward to with much interest.

Every member of the class is expected to be present as well as all the men of the church and congregation. The committee in charge of the eats promise plenty and a variety.

The program committee have decided to feature the music and lots of community singing; books have been secured for the Baracas containing all kind of patriotic songs and old time melodies. The male quartet will sing and there will be toasts and speeches. Don't miss this men, whatever you do.

### Eastern Star

The members of the Brainerd Chapter Eastern Star will go to Crosby on Saturday, Nov. 13th to attend the School of Instruction to be held there on Saturday afternoon and evening.

About 75 members will attend from Brainerd and will leave on the afternoon train at 2:20 p. m. Those wishing to leave later can leave Brainerd at 7:05 p. m. train.

A special invitation is extended to the husbands to attend social function in the evening.

This week is Cloverland Lamb Week. Eat more lamb—the healthful meat.

Cut This Out—It Is Worth Money  
Cut out this clip, enclose with 5c to Foley & Co., 2835 Sheffield Ave., address clearly. You will receive in Chicago, Ill., writing your name and return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup, Foley Kidney Pills and Foley Cathartic Tablets. H. P. Dunn, druggist, mwf

### Our Store Hours

## EAT MORE LAMB CAMPAIGN IS ON

Swift & Co. Pushes Use of Cloverleaf Lamb as Food in Brainerd All of This Week

### LOCAL MARKETS COOPERATE

Model Meat Market Has Its Place Nicely Decorated. Choice Cuts of Lamb Shown

Eat more lamb—Cloverleaf lamb raised on the cutover clover lands of upper Wisconsin, Minnesota and Michigan.

To foster this movement Swift & Co., co-operating with the National Wool Growers' association, has put on a special sales campaign in Brainerd for all this week. Retail butchers are enthusiastically co-operating in the movement which has for its object not only increased use of lamb in the meat diet, but also to encourage the raising of more sheep in the region tributary to Brainerd.

The Model Meat Market, of 323 S. Sixth street, has made an especially attractive exhibit of lamb. Choice cuts of lamb are shown in the window and dressed lamb enclosed in mosquito bar hang from the walls. The lamb sent to Brainerd is a selected shipment from the South St. Paul plant of Swift & Co., made up entirely of animals from the Cloverland region.

According to promoters of the campaign the consumption of lamb and mutton in Brainerd is not very high. In fact lamb now makes up but three per cent of the meat diet of the United States as against 20 per cent in Great Britain.

While the Cloverland lamb campaign is an annual event, the primary object of the movement is to build up a continuous demand for lamb, insuring the sheep men of a steady market, thus fostering an important industry in northern Minnesota.

Stimulation of the sheep industry will have far reaching effect. In normal times America produced only half of the wool it consumes and it never will produce a sufficient clip to meet the nation's needs until the consumption of lamb and mutton is vastly increased.

## Sweeney Says:-

SKATES, SKIS, SLEDS  
Our stock of sleds, skates and skis are now unpacked and ready for your inspection. Skates for every member of the family, sleds for the children, and skis for the older boys. They have all been priced exceedingly low and are real bargains. You can not do as well elsewhere.

## FUR ANIMALS BECOME SCARCE

BIOLOGICAL SURVEY CALLS ATTENTION TO NECESSITY FOR CONSERVATION.

### VALUE OF PELTS MOUNTING

Stringent Uniform State Laws and Close Seasons Over Periods of Years Are Urged for the Protection of Species.

By JAMES P. HORNADAY.  
Washington.—Unless fur-bearing animals are rigidly conserved, the biological survey declares, the time is not far away when many of the more valuable species will be exterminated and furs will be worn only by the very rich. This fact is said to be recognized by the fur trade generally, and by individuals who have made a study of the subject. "Directly or indirectly, fur contributes to the support or comfort of a large part of the population of the United States," say the biologists. "We import as much fur as we produce. In other words, we could sell at home twice as much fur as we are now producing, in addition to the foreign demand."

Since 1914, the center of the fur trade has been transferred to the United States. The greatest fur sales in history are now being held here, and all branches of fur dressing, dyeing and manufacturing are being successfully carried on by American enterprise. Values of skins have risen to heights that have surprised even those on the inside, and skins that formerly had little or no value as fur became popular under various trade names.

Values Go Up Rapidly.  
The biological survey cites the case of one man who bought a mink-lined coat complete in 1913 for \$500; after wearing the coat two years he sold the lining for \$1,000, and replaced it with nutria at a cost of \$150; in 1917 he sold the nutria lining for \$250 and put in a muskrat lining at a cost of \$55; in 1919 he sold the muskrat lining for \$300 and still has the shell of the coat and a clear profit of \$845. Two boys near Ottawa, Ill., sold \$1,000 worth of muskrat, skunk and mink skins during the winter of 1919-20. Alaskan trappers in 1918 sold furs valued at \$1,363,000. Skunk skins are estimated to have brought \$1,000,000 to New York state trappers in a single year.

A fact not generally known is that the United States government realizes millions of dollars annually from its fur industry. The seal skins taken on the Pribilof Islands by the bureau of fisheries in 1919, to the number of 27,821, were worth nearly \$4,000,000. From these islands the same year the government harvested 938 blue foxes, with pelts worth \$165,000. The skins of bears, bobcats, coyotes, mountain lions and timber wolves killed by predatory animal hunters of the biological survey in 1918 and 1919 brought nearly \$160,000.

In the resultant stimulation of the fur garment trade the survey foresees an intensified pressure on fur-bearing animals, which have been rapidly decreasing in number as a result of excessive trapping, clearing of forests, and draining of marshes. Already beavers and martens have been exterminated over a large part of the country. Even in Alaska trappers have had a close season of several years declared for the protection of beavers.

Extinction Is Threatened.  
Fur-bearing animals have decreased approximately 50 per cent during the last decade. The survey urges stringent uniform state laws and close seasons over periods of years for the protection of species, but it believes that still further measures are necessary to preserve fur-bearing animals. The biologists say a greatly increased production can be made possible only by domesticating the animals, just as livestock are now raised, and by establishing preserves for them where they will be safe from molestation. Protected areas stocked with the best fur animals that can be found will become centers from which choice breeding stock can be obtained for establishing other preserves and for private use.

Wild creatures soon learn where they are safe from molestation. Wild waterfowl in city parks swarm around visitors who feed them, as if they were domesticated. Wardens in Jasper Park, Alberta, say that as soon as the hunting season approaches many wild animals take refuge in the park. Experiments in propagating fur animals in confinement have been tried with varying results. The Department of Agriculture has already determined that silver foxes, black foxes, blue foxes, skunks, and muskrats can be farmed profitably under suitable conditions.

The department calls the attention of farmers to the desirability of keeping poachers off their forest lands and encouraging fur-bearing animals by preserving hollow trees and by substituting animal-proof chicken yards for the gun and trap in protecting their poultry.

Childish Argument.  
"Look here, Tommy, my doughnuts disappear pretty fast."  
"Maybe the fairies take 'em, Nora."  
"And what would the fairies want with doughnuts?"  
"Maybe they use 'em for tires."

### Special Vest for Gems.

"Jewelers' vests for sale." The sign hits you in the eye as you walk along John street. You ask the merchant (taller "What's a Jeweler's vest?" and he shows you one and explains it thus:

"You see, it's a long, sleeveless 'skeleton' garment made of black drill. It's longer than an ordinary waistcoat or vest and is worn between the regular vest and the coat. On the inside of the vest, on each side, is a deep pocket, with a flap and a button to close the flap.

"Jewelers wear them to carry the wallets in which they keep diamonds and other precious stones. They consider the pockets safer than those in the ordinary garments because the wallets do not bulge out the pockets so much. They wear the vests in going on their rounds on John street and Maiden lane and elsewhere in the jewelry district. I have known jewelers to carry as much as \$100,000 worth of diamonds in one of these vests."—New York Sun.

### Still Independent.

It was the day before the great G. A. R. parade and the teacher of a class of six-year-olds was trying to acquaint the children with the significance of some of the festivities.

The children, evidently rich in experiences of the recent war, interrupted rather freely so that little progress in the lesson was made.

"Finally one little fellow piped out, 'Yes, Miss — my uncle —' and here the teacher stopped him. Putting a hand on each cheek she said: 'Yes, dear, but you tell us that story later, won't you?'"

"Point no story, either," said he, solemnly, "my uncle was too shot through the leg by the Germans, and now he's —" Indianapolis News.

### E-Soldier Has a Good Stomach

"If a man spends six years in the army he surely would have to have a good stomach. I have a good one now and Foley Cathartic Tablets made it that way." If any one does not believe this, let him write to Arthur L. Lyons, 454 Cincinnati St., Dayton, Ohio. That is from a letter received by Foley & Co., H. P. Dunn, druggist.

Estate of L. A. Wakefield.  
State of Minnesota, County of Crow Wing, in Probate Court.

In the matter of the estate of L. A. Wakefield, decedent.

The State of Minnesota to all persons interested in the allowance and probate of the will of said decedent: The petition of Ruby I. Eckholm, being duly filed in this court, representing that L. A. Wakefield, then a resident of the County of Crow Wing, State of Minnesota, died on the 22nd day of October, 1920, leaving a last will and testament which is presented to this court with said petition, and praying that said instrument be allowed as the last will and testament of said decedent, and that letters testamentary be issued thereon to Ruby I. Eckholm. Now Therefore, you, and each of you, are hereby cited and required to show cause, if any you have, before this court, at the Probate Court Rooms in the Court House, in Brainerd, County of Crow Wing, State of Minnesota, on the 29th day of November, 1920, at ten o'clock a. m., why the prayer of said petition should not be granted.

Witness the Honorable J. T. Sanborn, Judge of said court, this third day of November, 1920.  
(Court Seal) J. T. SANBORN,  
Probate Judge

## Choose This Car as Your Car

Today it stands out as the standard of value in its field. No man, we believe, will deny that.

Among 75,000 owners the Dort has won a name for long and loyal performance at remarkably low up-keep expense.

Your own figures at the end of a season's driving will show measurably higher mileage per set of tires and gallon of gas and oil.

And so strongly and skillfully is the Dort constructed that even in stiffest travel duty, it requires mechanical attention with surprising infrequency.

Throughout the entire design you will find over-strength and over-size where ruggedness is required.

The strong Dort frame is formed of finest quality pressed steel, 5/32 of an inch in thickness and with a width of 1 3/4 inches and a depth of 3 1/2 inches.

Reaching sturdily across from one side member to the other are three heavy pressed steel ties, hot riveted, and reinforced by massive plates at the corners.

Hard duty will not distort this huskily-built frame.

It insures the car against developing rattles or weakness.

Now note the extra size of Dort springs.

The front spring—another contributing factor to the Dort riding smoothness—is of the semi-elliptical type with a stretch of 37 1/2 inches and a width of 2 inches.

The rear spring is of the famous cantilever construction—admittedly the ideal type for the Dort wheelbase.

Especially are the Dort springs noteworthy for they have a total length of 85 inches as compared to the 105 1/2 inch wheelbase.

In a word—the Dort spring length is practically 81% of the wheelbase.

Let us arrange a demonstration drive at your convenience.
